42-key Three-in-One Smart Thermostat Remote Control

can be connected to up to three aircons,
one floor heating and one fresh air.
Suppose the owner's living room and
dining room are connected together,
the living room has two air outlets and
the dining room has one air outlet
At the same time, the whole living room
has fresh air and floor heating system,
at which time, we will use this thermostat panel

Always light it up for you

← The text on the arc key of the M66 will automatically light up when it is picked up from the desktop, making it easy to use the remote control no matter how dark the environment is,

and when you put down the M66 on the desktop, the text light on the key will automatically turn off, enabling the remote control to maintain power-saving mode ↗

Long press
for 5 seconds
One-key
"scene capture"

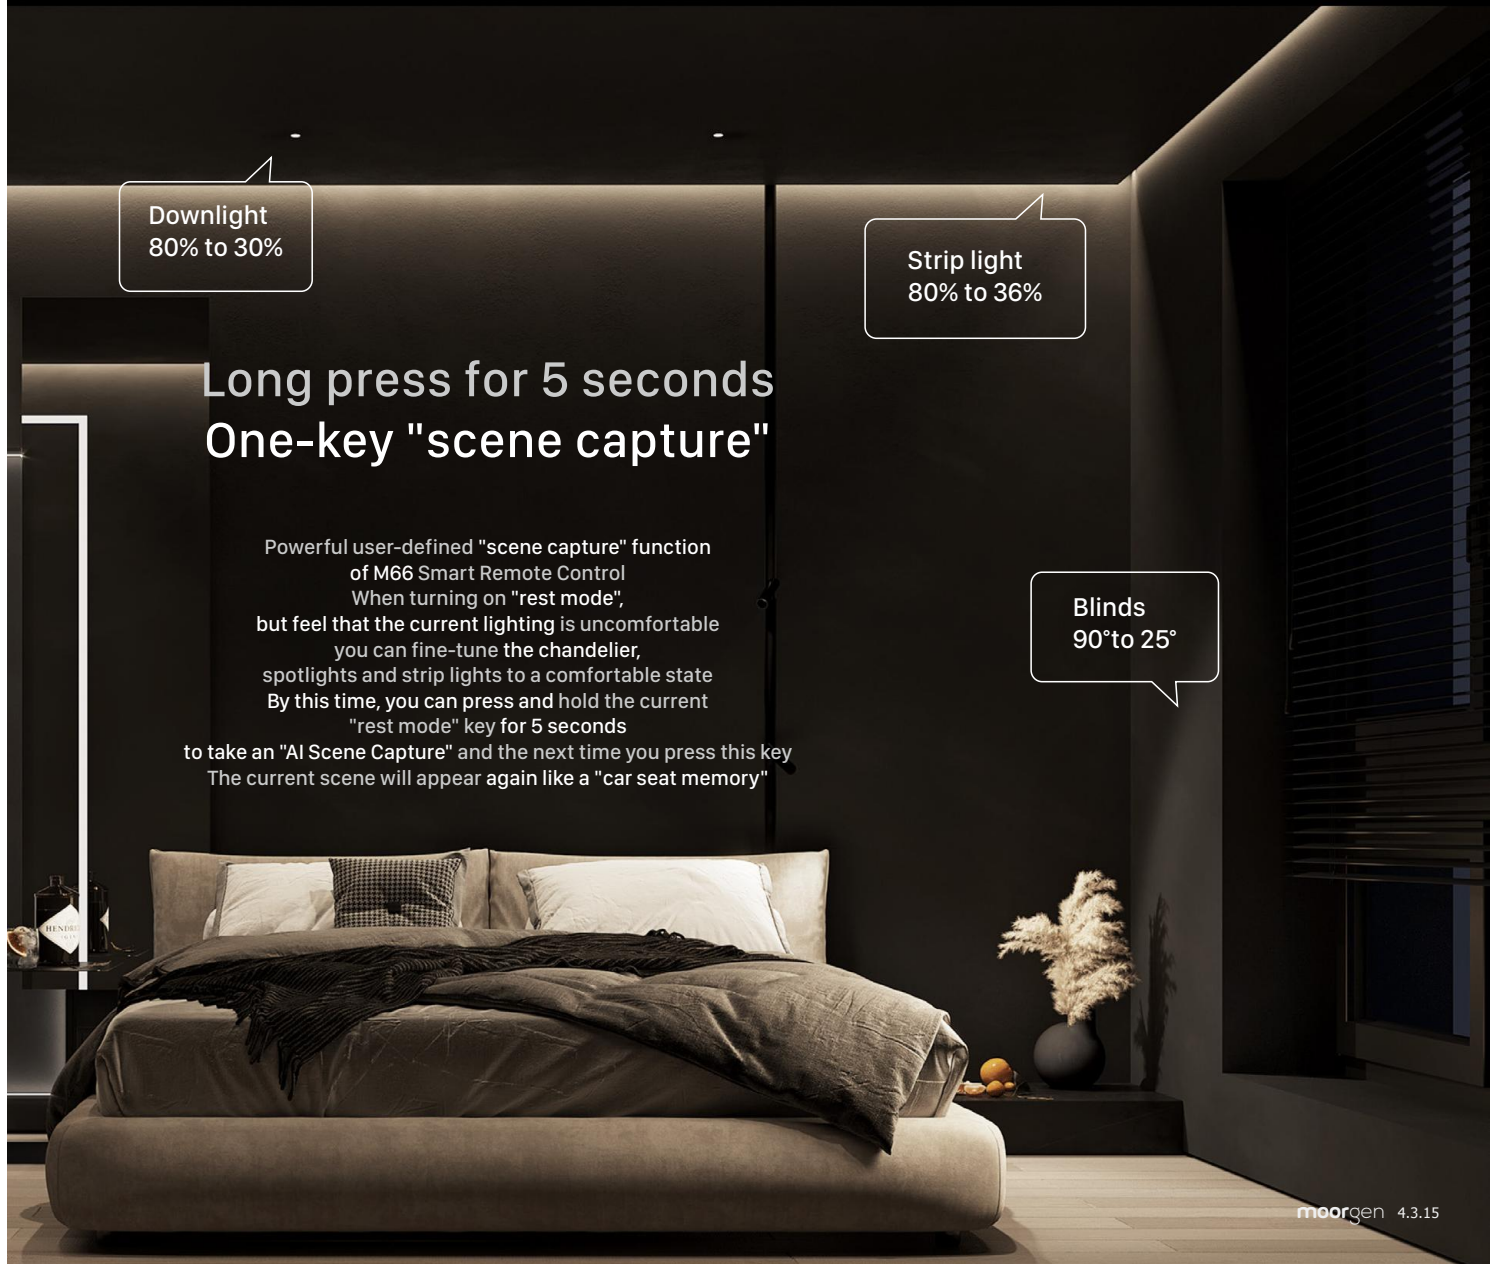

Downlight
80% to 30%

Strip light
80% to 36%

Long press for 5 seconds One-key "scene capture"

Powerful user-defined "scene capture" function
of M66 Smart Remote Control
When turning on "rest mode",
but feel that the current lighting is uncomfortable
you can fine-tune the chandelier,
spotlights and strip lights to a comfortable state
By this time, you can press and hold the current
"rest mode" key for 5 seconds
to take an "AI Scene Capture" and the next time you press this key
The current scene will appear again like a "car seat memory"

Blinds
90° to 25°
