Milan Series Panel LCD Touch Dimming Knob

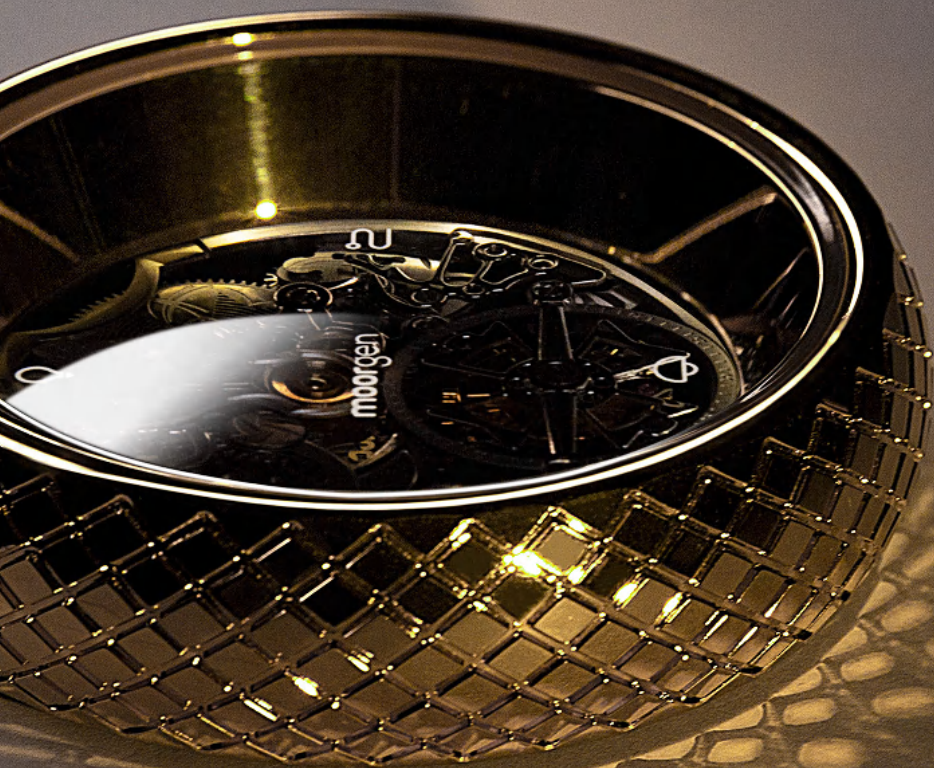

360 angular facets

The "Milan Series Smart Panel" features 360 diamond-cut facets on the outer rim and each facet is independent horizontally. Moorgen has precisely calculated the angle of each "individual horizontal surface" and applied "24K pure gold" to cover the surface to make each surface shine more brilliantly.

The Milan Dimming Knob is installed on the wall with a beam of ray from the top lighting the diamond cut facets of which the wall will reflect the sparkling light. When you rotate the "Milan outer rim" the "sparkling light" of facets of the 360 "gold-plated diamonds" will follow the speed of your hand

SWAROVSKI

CERTIFICATE

Swarovski is the premium brand for the finest crystal embellishments since 1895. Available in a myriad of colors, effects, shapes and sizes, crystals from Swarovski offer designers a fabulous palette of inspiration.
