Moorgen Integrated Smart Panel Steve Leung Supercar Series-
Inspired by the smooth curve of the supercar's shape

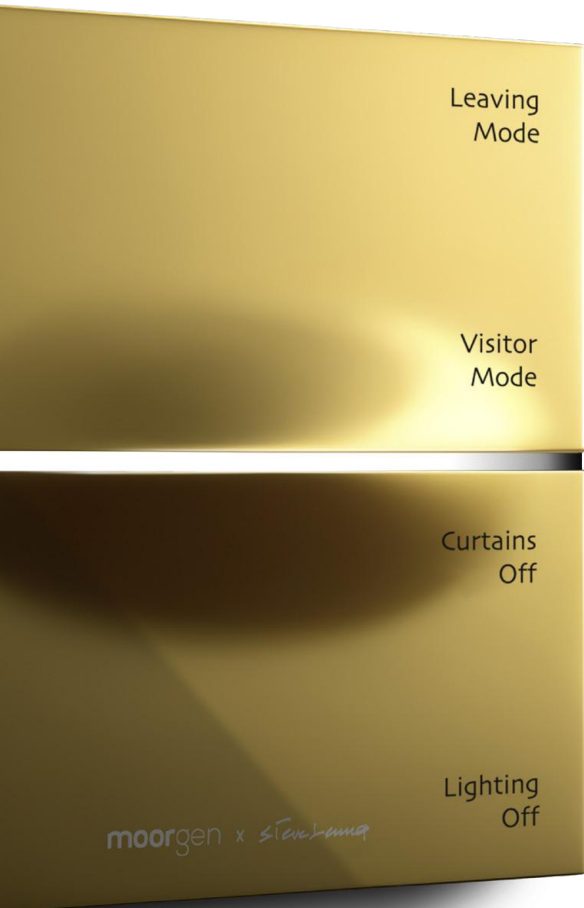

Graceful Mind Agile Style

Mr. Steve Leung enjoys the sense of speed of supercars,
being inspired by the very moment when a supercar takes a turn
and by the smooth curve of the supercar's shape,
so he adds solid curves to a flat panel.

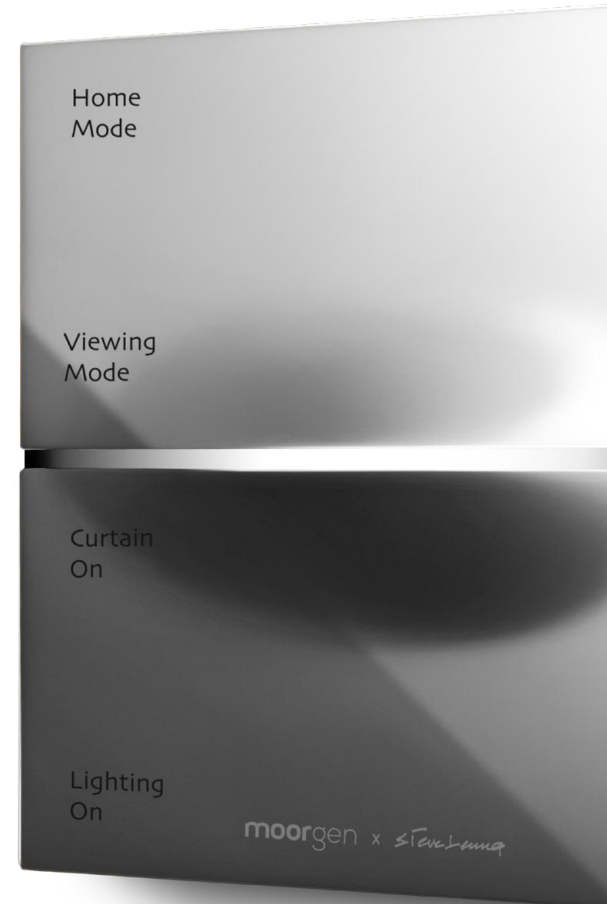

Awakening the urbanite "speed and passion"

The continuous flowing curve
Like the raised engine hood of a supercar engine
The light in the curved center seam of the sporty shape panel
Like a supercar tail light, bright and dynamic sporty

**Steve Leung Supercar Series
Smart Panel**
Monaco Gold, Belgium Silver
On these two panels
Raised engine hood
Reflected by the high gloss surface
and the "supercar tail light shade"
is a perfect blend

Steve Leung Supercar Series Smart Panel

A "supercar tail light shadow" is embedded in the center seam

Mica Black panel with red light;

Monaco Gold, Champaign Gold, Belgium Silver, Snowflake Silver,
Champaign Silver with white light

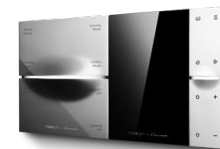

Mica Black C27 Privilege red light shadow

Champaign Silver C57

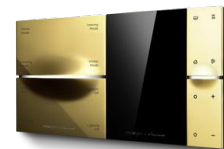

Snowflake Silver C50

Belgium Silver D37

Champaign Gold C12

Monaco Gold F18

When Someone Approaches

"Supercar tail light shadow"
will gradually fade away
The panel text automatically lights up
and slowly emerges
Silky light transition like
Supercar brake tail lights
Effective sensing distance 60cm

When Someone Leaves

Panel on the wall
Appears very clean
When someone leaves the panel
for 5 seconds
The text on the panel will gradually darken
While the panel's center seam's
"Supercar tail light shadow"
will slowly emerge
Effective sensing distance 60cm

Press with Vibration Feedback

When a key is pressed ,
the panel will have a vibration feedback,
the owner can clearly feel that
the panel has received the command

Long press for 5 seconds One-key "scene capture"

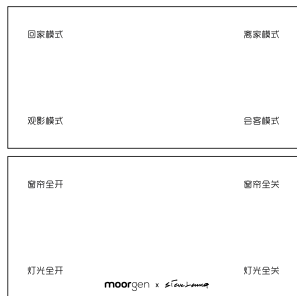

The Steve Leung Smart Panel has a super powerful user-defined "scene capture" function

When turning on "rest mode", but feel that the current lighting is uncomfortable you can fine-tune the chandelier, spotlights and strip lights to a comfortable state

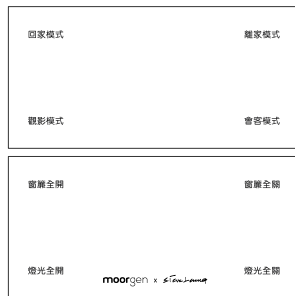

By this time, you can press and hold the current "rest mode" key for 5 seconds

to take an "AI Scene Capture" and the next time you press this key
The current scene will appear again like a "car seat memory"

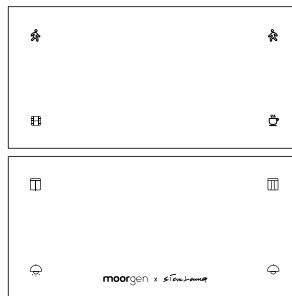

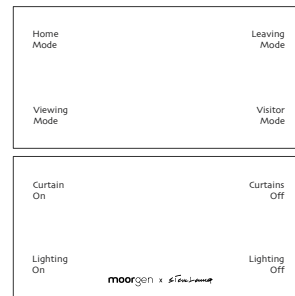

Default Simplified Chinese

Pressing the sleep mode key on the panel, the text light will automatically turn off without disturbing the owner's sleep

Night Mode

Under sleep mode the text light will turn on when you press any key and the night mode will be activated

A three-in-one Smart Thermostat Panel
can replace the original three traditional panels
for aircon, floor heating and fresh air

Default display
aircon I interface

Display the
aircon II interface

Display the
aircon III interface

Display back to
aircon I interface

Floor heating
interface

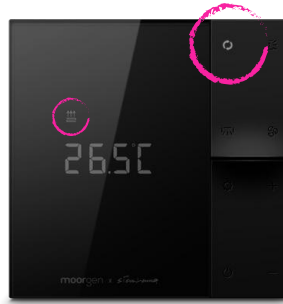

Fresh air
interface

A three-in-one smart thermostat panel can be
connected to up to three aircons, one floor heating and one fresh air
Suppose the owner's living room and dining room are connected together
the living room has two air outlets and the dining room has one air outlet
At the same time, the whole living room has fresh air
and floor heating system, at which time, we will use this thermostat panel

Default display
aircon interface

Press the cycle
mode key once
Display the floor
heating interface

Press the cycle
mode key once
Display the fresh
air interface

Press the cycle
mode key once
Display back to the
aircon interface

Press the vertical air
direction key once
Vertical air
direction
adjustment for
aircon mode only

Press the horizontal air
direction key once
Horizontal air
direction
adjustment for
aircon mode only

A three-in-one Smart Thermostat Panel, also with wind blades that can "vertically swing" and "horizontally swing" to control the new central air conditioner with vertical and horizontal air direction adjustment at which time we will use this thermostat panel
