Architects in London

Z A H A H A D I D A R C H I T E C T S

Zaha Hadid Architects'
design philosophy
is to design more global
"landmark projects"
which are inspired by
"Nature"

moorgen x Z H D

ZAHA HADID DESIGN

Superyacht

A 90-meter long jazz yacht
Its technical support and
details are provided
by German superyacht
producer Blohm + Voss
It's the first one of five unique
round yachts

Cases from Zaha Hadid
Architects in London

Zaha Hadid Architects
designs Moorgen
"Zaha Landmark Series"
smart panel
which is inspired by Zaha's many
"landmark projects"
around the world.

Heydar Aliyev Center

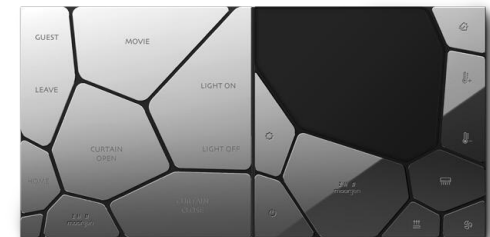

Awarded the 2014 Designs
of the Year at the Design Museum
in London

Cases from Zaha Hadid
Architects in London

ZAHA HADID DESIGN

Extremely artistic
"Landmark Cut" and
"Smart text&lighting
sensor system"
A perfect combination

moorgen x Z H D

Global Pioneer Split-level key layout

Moorgen Smart Panel
Zaha Landmark Series
Adopt the Split-level key layout,
presenting a whole different
visual experience
either from the front
or the side view.

The key text can light up
No matter dark or
bright in the space
Convenient for users
Make it clearly

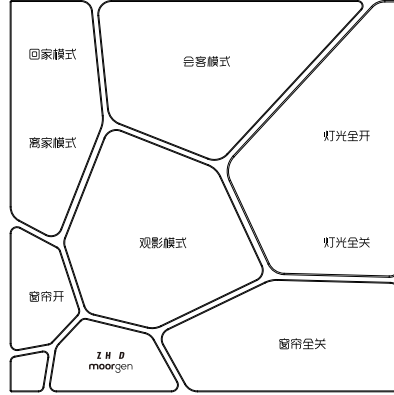

When Someone Approaches

The panel text automatically lights up and slowly emerges
Convenient for users
Effective sensing distance 60cm

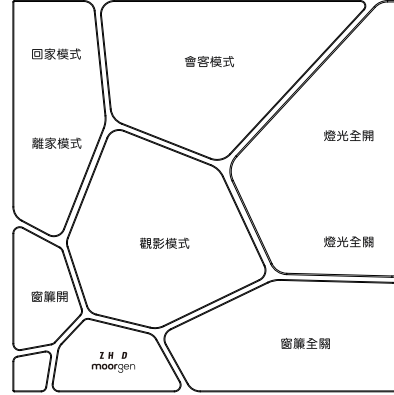

When Someone Leaves

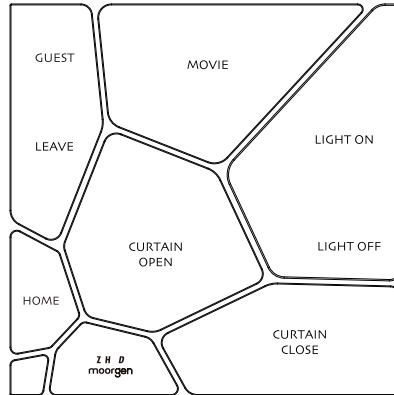

The text on the panel will gradually darken
Effective sensing distance 60cm

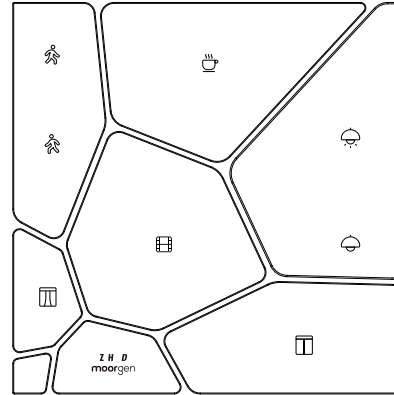

Default Simplified Chinese

Traditional Chinese

English

Symbols

The panels
can be customized
according to customers'
perfered text type

Press with Vibration Feedback

When a key is pressed ,
the panel will have a vibration feedback,
the owner can clearly feel that
the panel has received the command

Long press for 5 seconds One-key "scene capture"

The Zaha Landmark Smart Panel has a super powerful user-defined "scene capture" function

When turning on "rest mode",
but feel that the current lighting is uncomfortable
you can fine-tune the chandelier, spotlights
and strip lights to a comfortable state

By this time, you can press and hold the current
"rest mode" key for 5 seconds
to take an "AI Scene Capture" and the next time you press this key
The current scene will appear again like a "car seat memory"

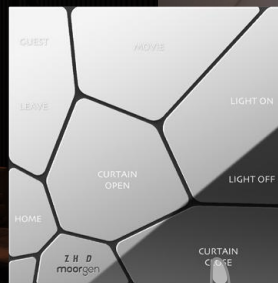

Sleep Mode

Pressing the sleep mode key on the panel, the text light will automatically turn off without disturbing the owner's sleep

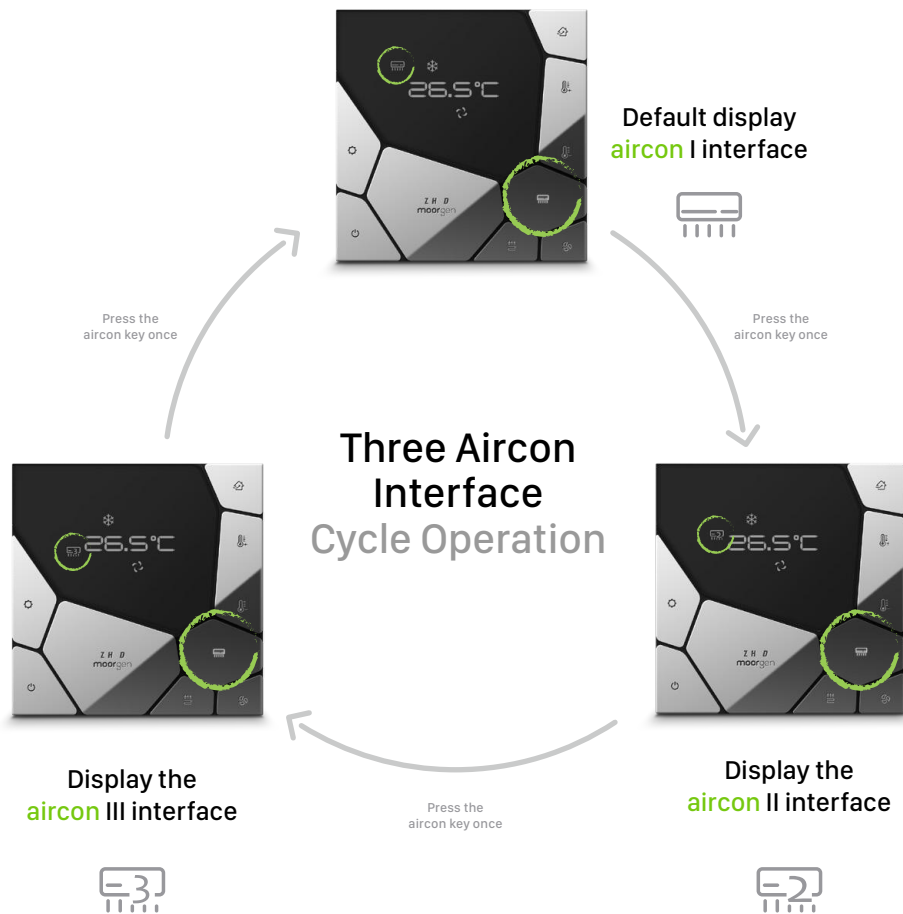

Night Mode

Under sleep mode
Press any key
the text light will turn on
and the night mode
will be activated
Owners can set
a time period that
can be triggered
For example
11p.m. to 7a.m

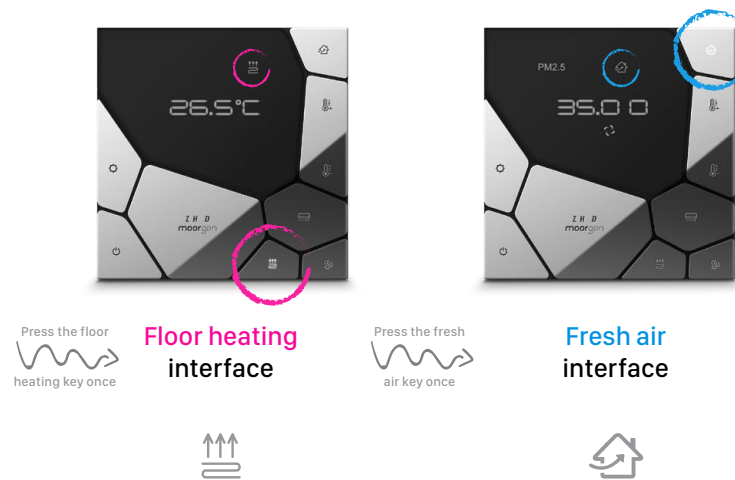

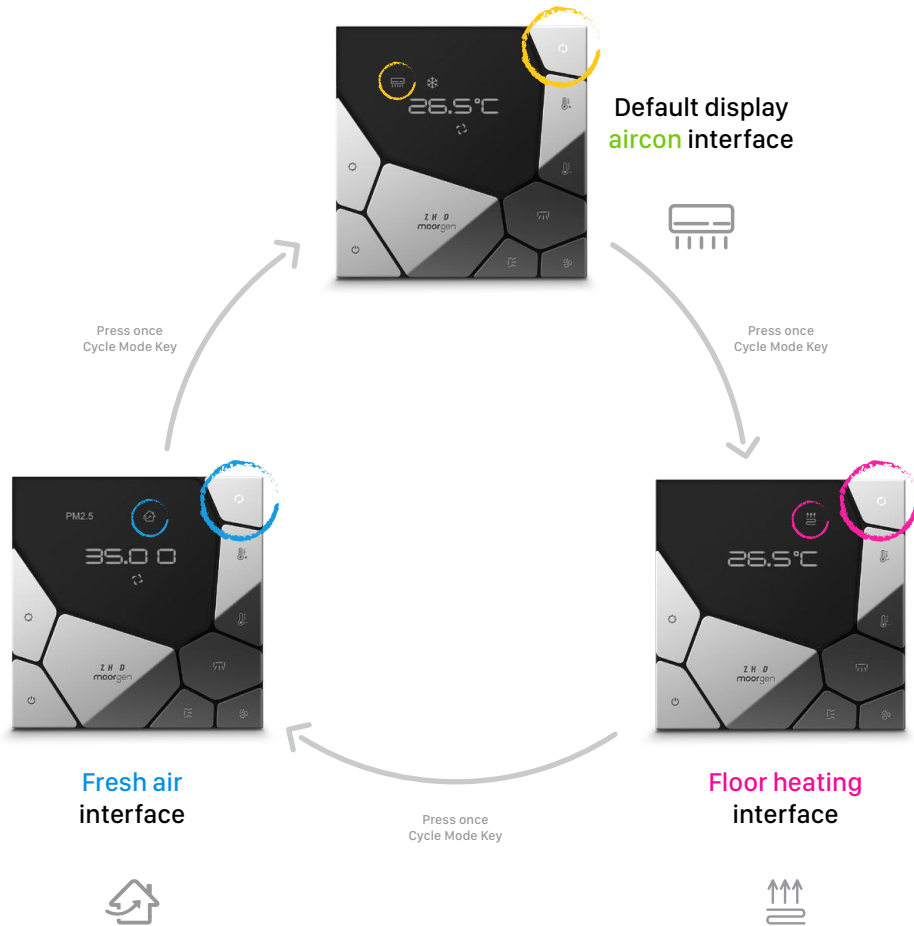

A three-in-one Smart Thermostat Panel
can replace the original three traditional panels
for aircon, floor heating and fresh air

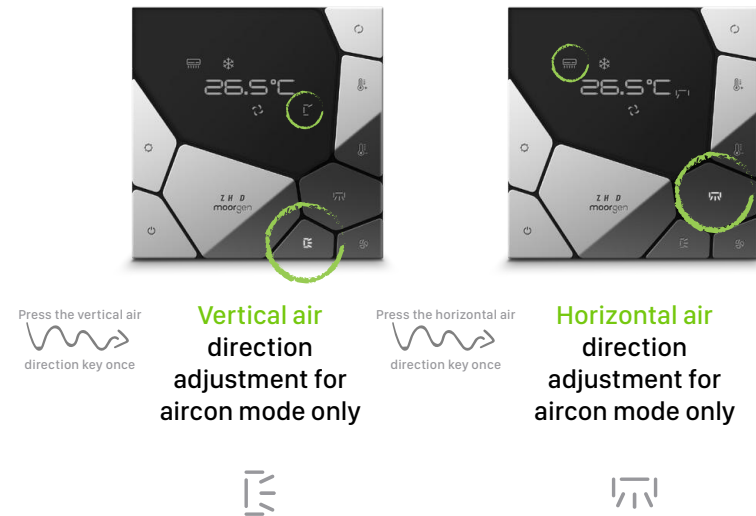

A three-in-one smart thermostat panel can be connected to up to three aircons one floor heating and one fresh air. Suppose the owner's living room and dining room are connected together the living room has two air outlets and the dining room has one air outlet At the same time, the whole living room has fresh air and floor heating system at which time, we will use this thermostat panel

A three-in-one Smart Thermostat Panel
also with wind blades
that can "vertically swing" and
"horizontally swing" to control
the new central air conditioner with vertical
and horizontal air direction adjustment
at which time we will use this thermostat panel
